

## SCAVOLINI

Firmato da Ora-ïto, il programma **Foodshelf** integra cucina e living risolvendo il contenimento con armadiature variamente modulate. Dietro l'isola con basi in laccato opaco Bianco Prestige, ecco due armadi con ante a scomparsa Switch in laccato opaco Bianco Prestige con maniglia a incasso laccata bianca, inframezzati da una colonna a giorno in laccato opaco Grigio Titanio. Come nella foto, gli armadi contengono un massimo di quattro elettrodomestici e si possono dotare di postazione lavoro con piano supplementare scorrevole, cassetti contenitori e ripiani; accanto ad essa, la colonna cela il frigo a incasso. Il contenimento prosegue con elementi di "interconnessione" tra cucina e living, ovvero le basi sospese in laccato Opaco Bianco Prestige che poggiano su una fascia sottobase in Frassino Natura e annettono il tavolo a sbalzo in laminato Frassino Natura con sostegno Network. Sulla parete perpendicolare, a destra, gli elementi living: mensola in Laminato Frassino Natura completata da basi con cassetti in laccato opaco Bianco Prestige. Sopra, mensole in Frassino Natura, pensili in laccato opaco Grigio Titanio.

Designed by Ora-ïto, the Foodshelf programme connects the kitchen and living area as well as providing storage space through a variety of cabinet modules. Behind the island, which has matt Prestige White lacquered base units, are two cabinets with Switch pocket doors in matt Prestige White lacquerwork, with built-in white lacquered handle, in between which is an open matt Titanium Grey lacquered tall unit. As shown in the photo, the cabinets can contain up to four electrical appliances and can be fitted with a workstation with an additional sliding worktop, storage drawers and shelves. Alongside this, the tall unit conceals a built-in refrigerator. The storage system continues with elements that "interconnect" the kitchen and living area, namely wall-mounted base units in matt Prestige White lacquerwork that rest on a strip below made of Natural Ash connecting also to the cantilevered table in Natural Ash Laminate with Network support. On the wall running at right angles on the right-hand side are the living area elements: a shelf in Natural Ash Laminate completed by base units with drawers in matt Prestige White lacquerwork.
